**FALLING
IN LOVE**

WITH
SHAREPOINT

TURN YOUR SHAREPOINT INTO THE ULTIMATE BUSINESS MANAGEMENT PLATFORM

Imagine an intranet that users love, that allows them to get their work done efficiently within a single digital workplace, and that keeps up with the changes of today's fast paced business.

Intuitive business applications built on top of SharePoint can make this happen. Applications delivered with WEBCON BPS give users easy access to their tasks and most up-to-date information, while ensuring their work is carried out according to the latest best practices and procedures. A self-explanatory user interface and powerful personal productivity tools **guarantee smiles on your users' faces.**

InstantChange™ technology revolutionizes how you build and continuously improve applications. Immediately implement changes based on feedback, new policies, and evolving requirements.

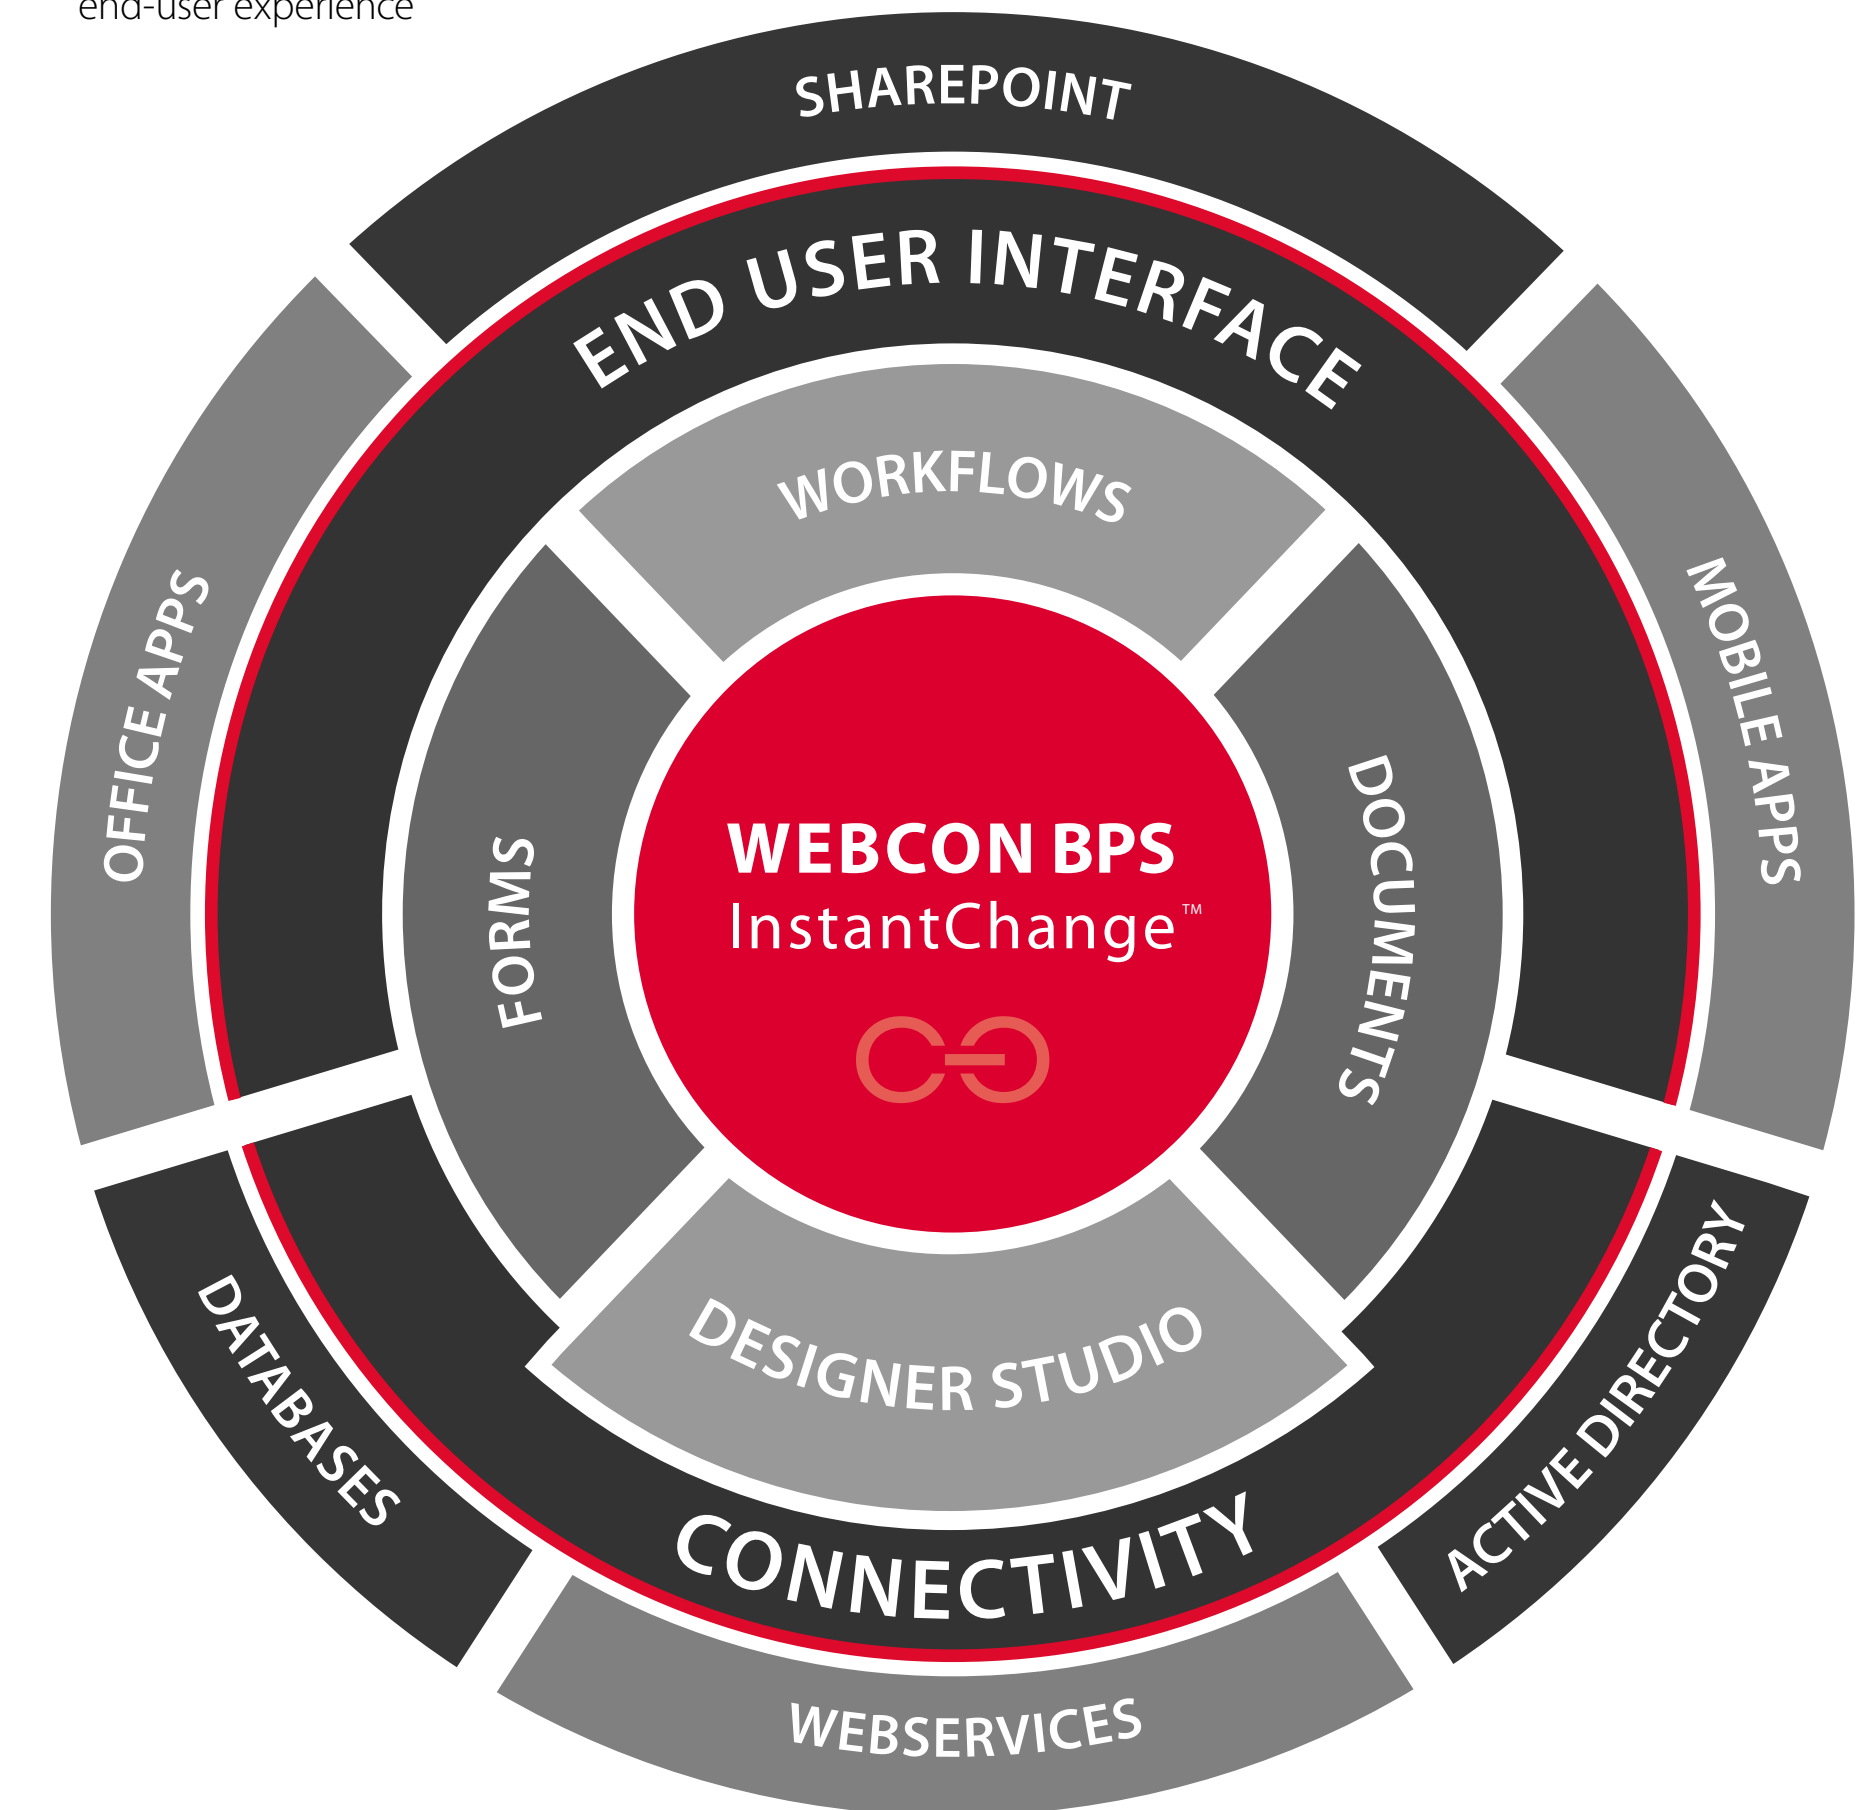

Users, the board and IT all benefit from having a single environment for business applications – from supportive to mission critical.

DESIGNER STUDIO
forms, workflows, business rules and integration. Everything you need within a single platform allowing no-code drag & drop application design

InstantChange™ TECHNOLOGY
revolutionary workflow, forms, migration and integration engines. No deploying, no waiting, results available instantly

PERSONAL PRODUCTIVITY TOOLS FOR MS OFFICE
leverage Outlook, Excel and Word add-ins to deliver the ultimate end-user experience

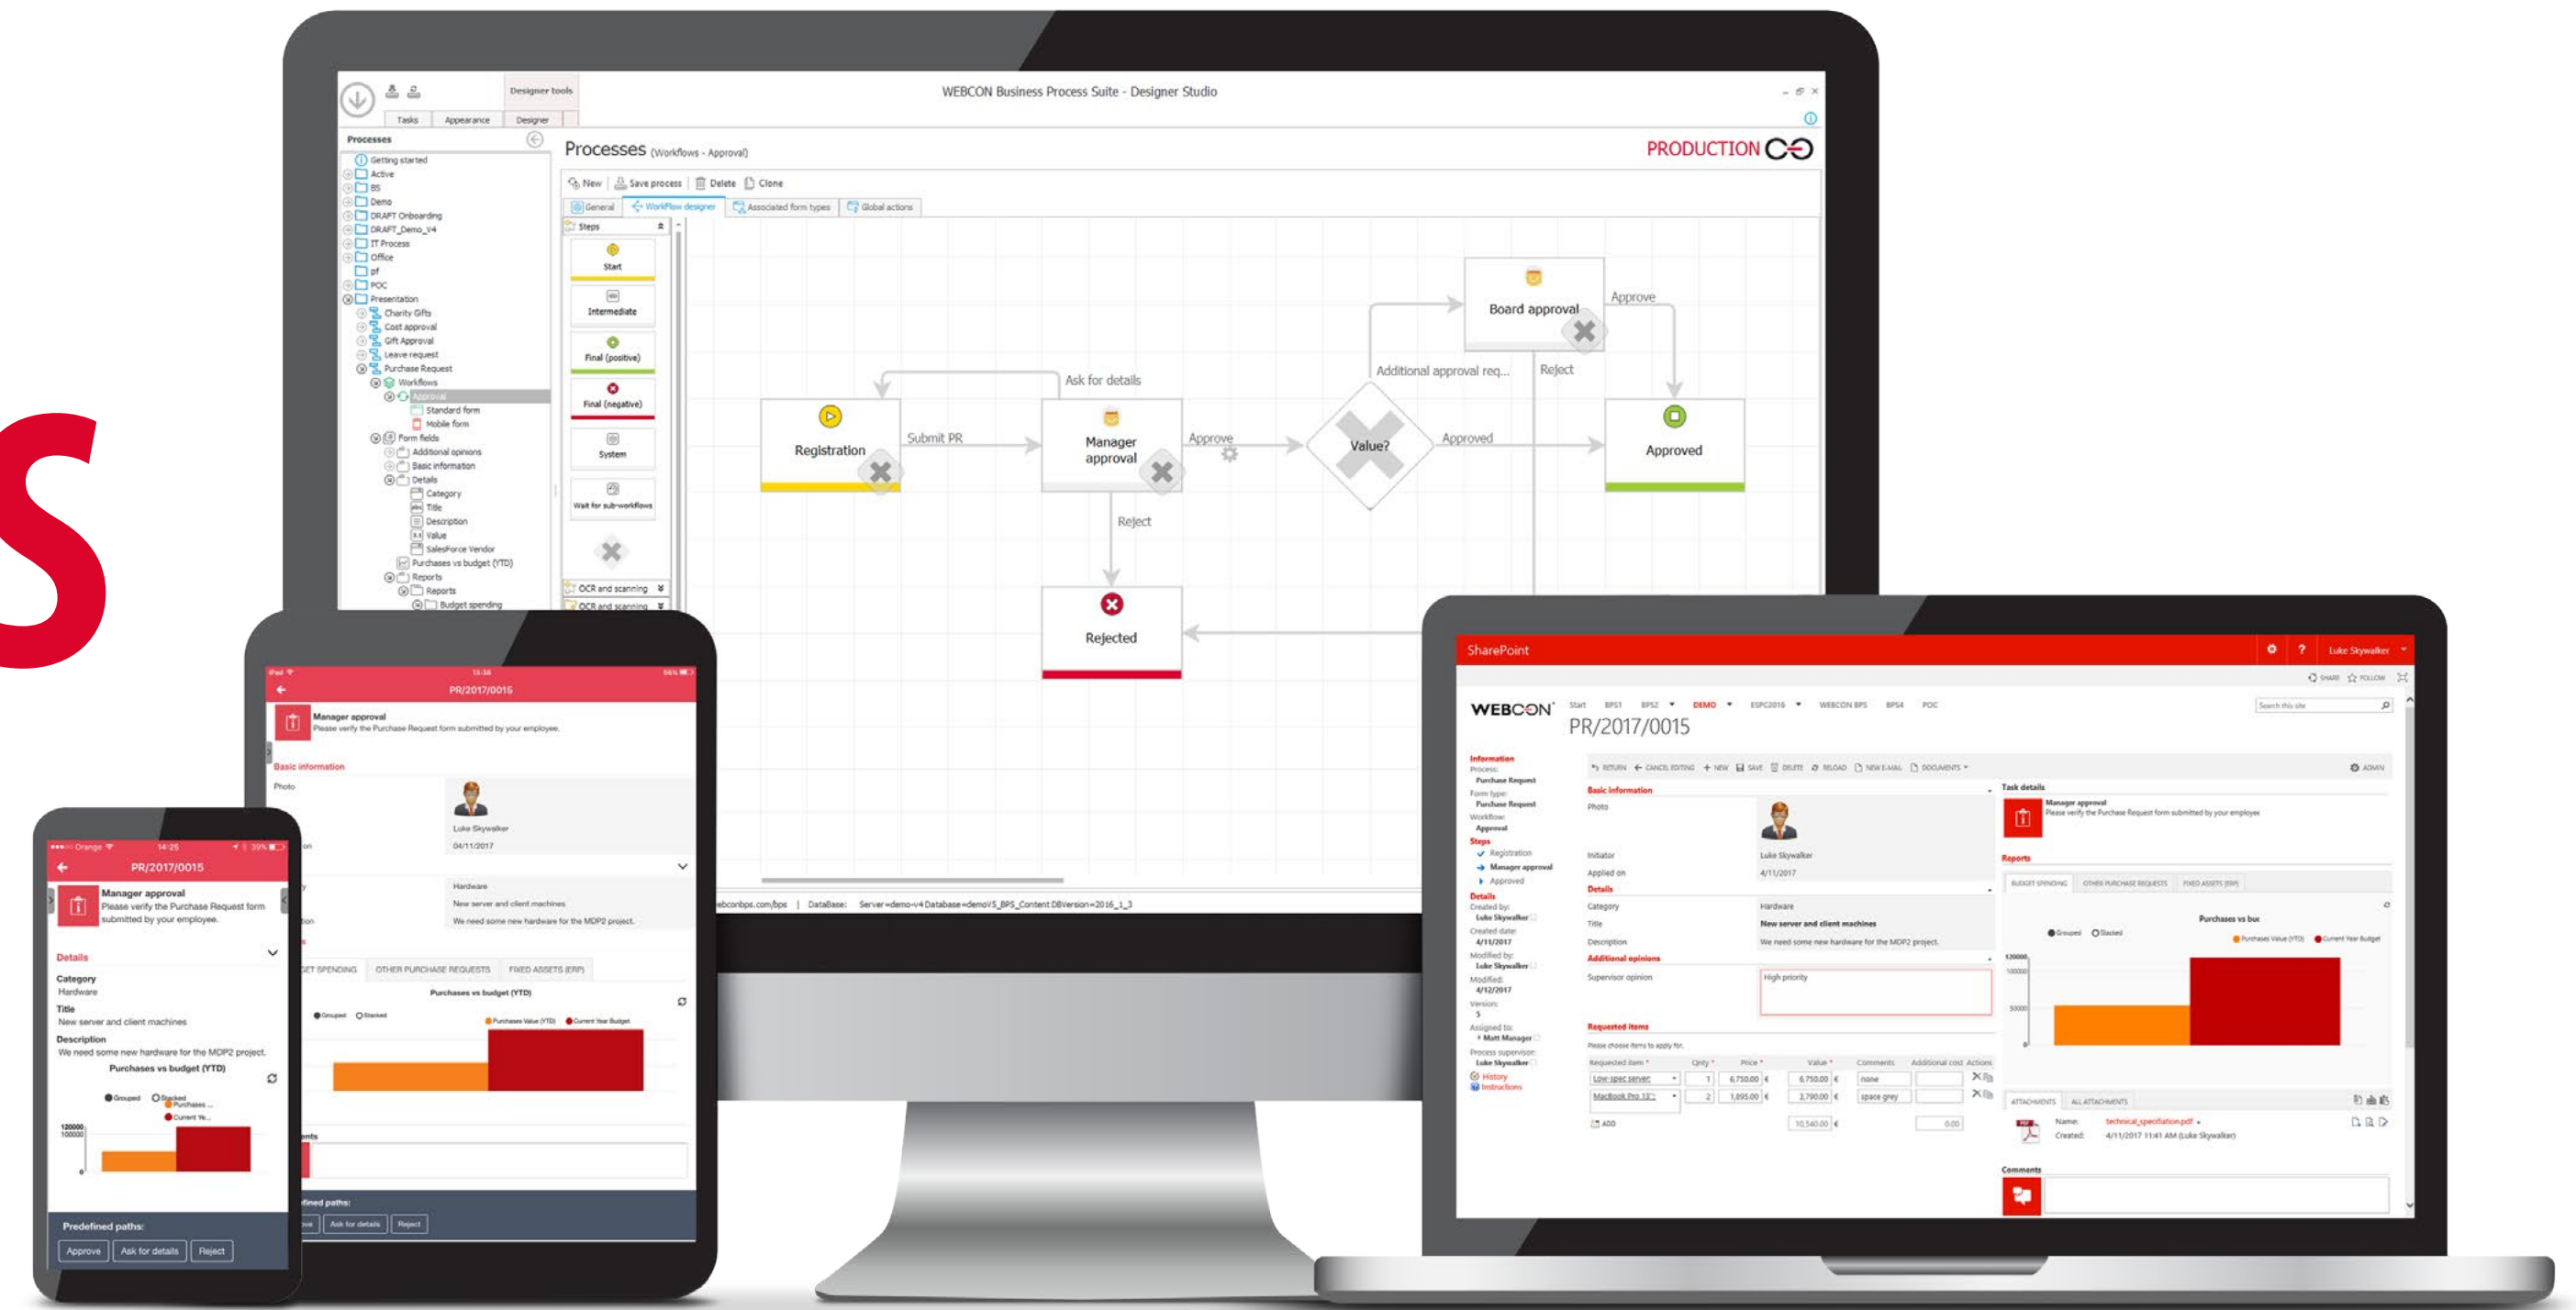

DOCUMENT MANAGEMENT
streamline the entire document lifecycle: registration, scanning, OCR, recognition and generation

MOBILE APPLICATIONS
one-click away mobile apps that end-users love for Android, iOS and Windows devices

SHAREPOINT INTERFACE
use on top of Office 365 or on-premises environments and enjoy the great interface users instantly feel familiar with
